**APS Elastomers Names Louis Morin Mid-West Account Manager
Romulus, MI (April, 7, 2014)**

APS Elastomers is pleased to announce the promotion of Lou Morin as their newest Mid-West Account Manager. His initial position with APS allowed Lou to gain knowledge in custom compounding, logistics and technical service. "His hands-on experience enabled Lou to learn all aspects of our distribution operations and lab facilities," says Roger Huarng, owner of APS Elastomers. "With his abilities to assist our company in several essential areas, we are looking forward to continuous growth".

Lou received his Bachelor Degree in International Business from University of Michigan. He is fluent in French and English. An avid hockey and lacrosse player, he currently coaches both sports for his high school alma mater.

Lou's new responsibilities will include sales, customer and technical support, and market development.

APS Elastomers remains the only independent TPU, TPE, TPV, and other elastomer resource to offer in-depth and high level customer service, sales, technical service, problem-solving, marketing insight, product development and other support to designers, marketers and processors. APS Elastomers also provides expedited shipment and full laboratory services.
